PROFESSIONAL SUMMARY

Artificial Intelligence and Machine Learning engineering student with hands-on experience in Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), vector-based semantic search, and cloud deployment. Skilled in designing scalable AI systems, optimizing model inference performance, and deploying AI-powered web applications using IBM Watsonx and AWS. Strong interest in AI system optimization and applied machine learning research.

TECHNICAL SKILLS

Programming Languages: Python, Java, C/C++

AI/ML: Machine Learning, Retrieval-Augmented Generation (RAG), LLM Integration, Model Optimization

Cloud Platforms: Amazon Web Services (AWS), IBM Cloud, Oracle Cloud Infrastructure (OCI)

Tools & Frameworks: MongoDB, MySQL, Pandas, Linux, Supabase, VS Code, REST APIs, Git

Web Development: Full Stack Java Development, AI-Integrated Web Applications, Web Development

PROJECTS

Legal AI Assistant (RAG-Based LLM System) | Python, IBM Watsonx, Cloud Deployment Nov 2025

- Engineered a Retrieval-Augmented Generation (RAG) architecture to enhance factual accuracy of legal query responses.
- Implemented vector-based semantic retrieval to improve contextual grounding before LLM inference.
- Optimized token utilization, reducing inference latency and operational cost.
- Deployed a scalable web interface for interactive legal assistance using IBM Watsonx cloud services.

Maternal Health Risk Prediction App | Machine Learning, Python Aug 2025

- Built and trained supervised classification models to predict maternal health risk levels from clinical indicators.
- Engineered features and performed preprocessing to improve model robustness and prediction stability.
- Evaluated models using accuracy, precision, recall, and confusion matrix metrics to ensure reliability.
- Implemented a lightweight web interface to deliver real-time healthcare risk predictions.

EXPERIENCE

IBM SkillsBuild for Academia Intern Jul 2025 – Aug 2025

IBM

Remote

- Completed intensive training in Artificial Intelligence, Machine Learning, and Cloud Computing using IBM Cloud.
- Developed and deployed AI-driven applications leveraging IBM Watsonx tools and APIs.
- Earned IBM-certified credentials demonstrating proficiency in cloud-based AI solutions.

Social Media Manager Feb 2025 – Sept 2025

Kynetic

Bengaluru, India

- Managed multi-platform digital campaigns, improving engagement rates by approximately 25% through data-driven strategies.
- Analyzed audience insights and campaign metrics to optimize content performance and increase brand reach.

Stage Operations Lead (CPA) Aug 2024 – Present

Dayananda Sagar University

Bengaluru, India

- Led event teams to organize engaging student and cultural activities.
- Coordinated logistics, technical requirements, and team responsibilities for large-scale university events.

EDUCATION

Dayananda Sagar University Sept 2023 – Aug 2027

Bachelor of Engineering in Artificial Intelligence and Machine Learning

Bengaluru, Karnataka

Krupanidhi Pre-University College Jun 2021 – Apr 2023

Physics, Chemistry, Mathematics, Computer Science

Bengaluru, Karnataka

LANGUAGES

English, Hindi, Kannada, Telugu
